

AIRCRAFT MANAGEMENT

ENJOY AIRCRAFT OWNERSHIP WITHOUT THE BURDEN OF ADMINISTRATIVE, REGULATORY AND OPERATIONAL TASKS

Short or long-term programs

Highly adaptive turnkey programs to accommodate the unique requirements of each client. Monthly and yearly management programs available as well as aircraft Entry Into Service (EIS) startup support with gradual transition into an autonomous client operation.

Experts in aviation regulations

Wide-ranging knowledge of aviation regulations worldwide, especially in emerging countries. Strong relationships maintained with their civil aviation regulatory authorities and governmental agencies.

Unparalleled international expertise

Extensive real-world experience and vital working knowledge in the following regions: India, Middle East, Russia, Africa, China, South-East Asia, North and South America.

Key relationships

Global network of contacts including relationships with major aircraft manufacturers and aviation service providers, facilitating the handling of warranties, maintenance program coverage, training and more.

Significant cost savings

Advantageous pricing on fuel, insurance, crew training and more, through strong partnerships and considerable purchasing power.

Complete invoicing transparency

All maintenance costs handled by ACASS on the client's behalf re-billed at cost to the client following thorough verification.

IS-BAO registered and POC holder

ACASS offers the highest levels of professionalism and operating best practices, exacting safety standards and enhanced collaboration with regulators. All of this is ensured by our International Standards for Business Aviation Operation (IS-BAO) certification, as well as our Safety Management System (SMS).

Highly professional service

Experienced management team, with over 50 aviation professionals on staff. 24-hour, 7-day a week, 365-day a year client support provided.
