

ENTRY INTO SERVICE SUPPORT

GETTING YOU FLYING

Entry Into Service (EIS) of a high performance business jet in an emerging market is a unique experience and requires customized operational support.

The overwhelming number of tasks and the complexity of the aviation regulatory environment can incur frustrating and costly delays which keep you from taking advantage of your valuable asset. ACASS can guide and support you through every step of this process thanks to its proven EIS management services.

EIS pioneers and world leaders

ACASS is spearheading the EIS space with a well structured planning and implementation process designed to let our clients take advantage of their aircraft in an efficient and timely manner, anywhere in the world.

Unparalleled international expertise

Extensive real-world experience and vital working knowledge in the following regions: India, Middle East, Russia, Africa, China, South-East Asia, North and South America.

Experts in aviation regulations

Wide-ranging knowledge of aviation regulations worldwide, especially in emerging countries. Strong relationships maintained with their civil aviation regulatory authorities and governmental agencies.

Cultural awareness & sensitivity

ACASS is aware and mindful of the varied cultural distinctions around the world. Utmost respect and discretion are paramount to our success.

Key relationships

Extensive global network including aircraft owners and operators, major aircraft manufacturers, aviation advisors and service providers.

Crew Support world leader

Largest supplier of experienced business jet crews with over 4,400 pilots and aviation professionals worldwide.

Highly professional service

Experienced management team, with over 50 aviation professionals on staff. 24-hour, 7-day a week, 365-day a year client support provided.
